of testimony was closed and arguments were begun today in the case of Abe Ruef on the charge of perjury. Henry opened for the prosecution was followed by Henry Ach for the defense. Ach did not finish until a late hour last night.

Tomorrow Attorney Chapman,

Preliminary to the opening of the case, three witnesses were examined. G. H. Umbson, the real estate man, was questioned by Asch

The checks which were passed for the Parkside money was first cashed at the Union Trust Company, in two portions of \$15,000 each, from the Crocker-Woolworth bank. President J. E. Green of the company corrected the date of a statement concerning the corporation's assets, and William J. Ding-

admitted apparent discrepancies in testimony relating to conference admits.

Attorney Ach energetically offered these explanations, but the court admitted them.

"That's the State's case," said the judge.

"Do you rest?" asked Ach.

"Yes," Heney replied.

"So do we," said Ach.

Penney immediately began his argument to the jury, reciting facts connected with the liberty of Supervisors through the interest of the Parks department, as developed by the evidence making a vigorous plea for conviction of the defendant. He closed shortly after 12 o'clock. Interim Attorney Henry Ash

APPEARS LIKE CLASSY CARD.

Walsh and Menney Should Put Up Splendid Bout.

Gardner and Baker Are the Heavy Performers.

Carney to Be Seen in First Fight in Local Ring.

Jimmy Walsh and Eddie Menney, ten rounds. Dale Gardner and Howard Baker, ten rounds. Frank Carney and Harry Rose, ten rounds. Mike Kutches and Jap Oyama, six rounds.

Manager McCarty's card tonight looks to be about the best he has put on in many months, outside of the big championship events. There does not look to be a stalling bout in the four, and the men are pretty well matched.

What may prove to be the only poorly-matched bout of the lot is that of Carney and Rose, and, although the latter is only a port-and-beaner restricted against a veteran, he may surprise the crowd and hold Carney even. Rose certainly is willing and courageous, but lack of experience and overconfidence may be his undoing. He put up a great battle against Lanza recently, and in that bout he looked to be much improved over previous minor engagements.

Although Eddie Menney was outpunched by Jimmy Walsh last winter, he has grown in weight, experience and hitting power. He has more confidence in himself and will not have to fight Walsh's reputation as well as his fists. In this bout, for he has been up against some good ones since the first meeting between the pair. Walsh looks the better of the two, but Menney is not underrated by him and his manager, Eddie Keavin, and the banking champion has trained faithfully for the bout. Menney probably will weigh in with every ounce of the 120 pounds allowed him, while Walsh probably will weigh about the minimum limit of 115.

Dale Gardner is the winner of many hard battles in the San Francisco arena, and it looks like a slugger against a clever man, for Howard Baker seems to carry plenty of "kick" in his mitts from reports of his battle with Montana Kid at San Bernardino. It looks as though Gardner will win, however, and if he does he will get a chance with some of the better welterweights, perhaps Jimmy Gardner.

Mike Kutches has it on Jap Kid Oyama, who is so confident of winning that he is fighting winner take all. Kutches seems to have too good a defense and too heavy a "kick" for the little brown man, and ought to put the tough Nipponese away in about four rounds.

POLICE STOP BOUTS. GEORGE GARDNER BEATEN. (BY DIRECT WIRE TO THE TIMES.) NEW CASTLE, Pa., May 18.—[Exclusive Dispatch.] George Gardner of Lowell, Mass., formerly light heavyweight champion, made a poor showing here tonight against Tony Ross, a local heavyweight. County Detective Logan interfered in the seventh of what was scheduled to be a twelve-round bout. Gardner was weak and dizzy.

The police interfered in the second of a ten-round middleweight bout between Joe Keely of Chicago and Black Fitzsimmons of Boston. The fight was in no condition and was called off. Jack Young of New Castle and Young Biju of Pittsburgh, lightweights, drew in an eight-round preliminary.

DROPS NELSON. M'FARLAND AND GANE. (BY DIRECT WIRE TO THE TIMES.) CHICAGO, May 18.—[Exclusive Dispatch.] Finding that Battling Nelson is hesitating about coming here or to Milwaukee, Packer McFarland announced today that he would sign articles for a match at Cofy's, or San Diego's arena in San Francisco and would depart for the West either Saturday or Sunday.

"Nelson seems to be getting cold feet," said Packer today, "but I am going to the limit to see if he will box or not. I am willing to split the money 65 and 35 per cent. We are to get 60 per cent of the gross receipts if we meet before Berger's club. The fight scheduled between us for Milwaukee seems to be definitely off. "I am going to start the latter part of this week and I intend to meet Nelson personally. In case he does not want a bout, I'll sign with Gane."

BAKER'S FAST BOUT. DRAWS WITH GROVER HAYES. (BY DIRECT WIRE TO THE TIMES.) PHILADELPHIA, May 18.—[Exclusive Dispatch.] Harry Baker and Grover Hayes furnished the wind-up attraction at the West End Athletic Club tonight and they put about as much action into the six rounds as any two human beings could possibly furnish and at the end there was little difference either way.

Hayes did the most forcing and he carried the fight to Baker in every round, but the western lad offset this with his great cleverness. His straight jabbing brought the blood to Grover's mouth in the third round and again in the fifth.

Ketchell and Pappas. MILWAUKEE (WIS.) May 18.—Stanley Ketchell and Billy Pappas today signed articles for a ten-round bout at 154 pounds before the Milwaukee Boxing Club on June 4.

Women's Golf Tourney. ST. ANDREWS (SCOTLAND) May 18.—Play in the British women's open golf championship was begun on the historic links of St. Andrews today with an 18-hole stroke competition, in which the five American players who have entered for the championship tournament took part. The conditions were very difficult and the strong wind that blew today made low scoring hard.

Miss M. F. Phelps was the first American to finish, her score being 187. The best score thus far, 91, was made by Miss Thys, an Irish woman.

Court Tennis Games. LONDON, May 18.—The court tennis tournament of the Olympic games was opened at Queen's Club today. Eustace H. Miles, the English player, defeated Charles E. Sands of New York three straight sets. The score was 6-4, 6-3.

HOLDS THE LID. GOVERNOR AFTER RACE GAMBLERS.

BOOKMAKERS AND BOOZE LAM-BASTED BY SANDER.

Louisiana's New Chief Executive Recommends Wiping Out of Evils in Message to Legislature—Says Moral Sense of People is Argued Against the Betting Game.

(BY THE ASSOCIATED PRESS—A.M.) BATON ROUGE (La.) May 18.—Race gambling to be suppressed absolutely, and local option combined with high license to regulate the liquor traffic, were two of the more urgent resolutions of Gov. Sander's inaugural message to the Legislature today. Of race track gambling, the message said: "The manner and mode of conducting race tracks in and around New Orleans and the flagrant gambling carried on at the tracks has deservedly aroused the moral sense of the people against it. I earnestly urge the General Assembly to enact legislation prohibiting and penalizing gambling on horse racing."

After noting local option as the constitutional policy of the State, the message said: "Prohibition has worked well in those sections of the State where popular sentiment is in favor of it. Some of the best towns and villages are those where prohibition has prevailed long enough to afford the people a moral basis. On the other hand obstacles in the way of enforcing such a law in portions of the State are so great as to render the task practically impossible. A higher license, however, with a minimum license of \$500 for parishes and municipalities would appear to be not an unjust demand."

Condemning the expressed pretenses of combining saloon and grocery and of issuing new licenses to saloonkeepers, the message recommended of selling liquor in the same places to negroes and whites.

NEW SPRINGFIELD HERE. National Guards Equipped With Government Gun and May Practice Shooting Today.

All companies of the Seventh Regiment, N.G.C., have been equipped with the new Springfield rifle and several thousand rounds of ammunition with the pointed bullet, which will henceforth be used in target practice. The Springfield rifle is an improved rifle, the Krug in nearly every feature. The nickel-steel barrel is twenty-four inches long, giving a good balance, both near and distant, and are adjustable for windage, and the cartridge as issued by the government gives the projectile a muzzle velocity of 270 feet per second, and an extreme range of 400 yards (nearly three miles), at 42 per cent. elevation. The trajectory is fairly flat up to 500 yards; the variations for elevation and windage at all ranges are much less than on the Krug, and the trigger pull is finer and more regular.

Company A has sixty of the new guns. The regimental shoot will be held early in June, and the rifle for the State shoot in July. At the latter event the team to represent the State at the national matches at Camp Perry, Ohio, in August, will be chosen.

DIANAS OF CALIFORNIA. Women in the Wilderness of the Sierran Mountains Enjoy Hunting Big Game.

(SPECIAL CORRESPONDENCE OF THE TIMES.) GRANT'S PASS (Cal.) May 18.—One of the most isolated and wildest sections of all America is that portion of the Sierran Mountains of Northern California, occupying the extreme northern part of Sierran and Del Norte counties.

It is up there in those wilds where black, brown and cinnamon bear, as well as panther and lynx abound, that Mrs. A. B. Cornell and her daughter, Miss Marie, go regularly each summer for their outing. The clothes worn are the kind demanded in the Northern California wilds, where the hunter must scramble through dense undergrowth, scale precipitous cliffs and perform other feats that shirts would prevent or make dangerous.

The mountain cabin of these bold hunters is adorned with antlers, bear skins, panther robes, and other trophies of the hunt. They hunt deer by stalking, this being the only method allowable since the enactment of more strict game laws; also, it is more sportsmanlike. This requires much patience and perseverance, as the hunter must creep and crawl for a long distance in order to approach the deer herd unobserved.

The white tail is the most common there, though an occasional moose deer is found. This species is almost as big as the elk, the bucks having great antlers and exceptionally large ears, this latter characteristic accounting for the name given it.

These women hunters also use the method of the mountaineer in hunting deer. They locate a deer by its tracks, and then, as the hunter is hardly necessary to hunt bear, as they are found without hunting. The hunting method is to locate a sweet acorn grove and hide in the dense growth nearby. After waiting an hour or more the bear comes out to feed and are shot down while they eat.

Wise Talks By "The Office Boy"

Life is full of checks, and many of them are forgeries. Still some people figure it is cheaper to own rent than to move. I guess trouble is about the only thing a fellow can borrow nowadays without security, still a fellow never knows what real trouble is until he goes out with a girl who wears a "Merry Widow" hat. You get stashed outside on a car and she turns to say something when you see your Silverwood hat is gone or you've got a black eye. It's a good thing they didn't make the men's suitcases very wide open, or they'd have to run twice as many cars.

Have you bought your straw hat yet? Yes, No? Well, don't do it until you've seen "Bill." We have certainly got the straw hats this season. "Stetson," Blum & Koch's, Brigham Higgins' and all the best mills, and have contributed their very swiftest shapes to our assortment. We have every shape and quality from \$1 to \$10.

UTOS TO FLY IN BIG MEET.

Decide to Have Two Days of Racing.

Will Be One-hundred-mile Derby.

Entries Already Certain for Long Race.

Monday automobile race meet, to be held at Agricultural Park on Sunday and the following Sunday, through action taken at the meeting of the Automobile Association, held last night at the H. O. Harrison Convention.

Not only is the most certain, though entries for the feature were secured last night, to include a day field of contestants, but the fifty-mile derby as a feature, as was suggested last night, is the only one to be held on the second day.

A fifty-mile derby will be held on the program for the day. The idea of a hundred-mile race was received with enthusiasm from the members of the Automobile Association.

With other members of the Automobile Association still to be heard from, it is very probable that an official fifty-mile derby will be held on the day.

The cars already entered for the race are: Duesenberg, Tourist, Franklin, Dayton, Maxwell, Cadillac.

The fifty-mile derby also entered at the meeting of the Automobile Association, held last night, is the only one to be held on the second day.

agent has resulted in the accumu-  
lation of 125 tons of ore with an average  
running from \$15 to \$30 per ton. From  
a rich stringer in this ore body six  
bags of ore running from \$80 to \$200  
has been extracted. The company has  
started a second shaft, known as the  
Gravel and ninety feet struck a flow  
of water. Drifting from this point is  
now going forward, and Speth says  
that excellent pinnings have been  
taken in the past few days. Some years  
ago the mine was equipped with a five-  
stamp mill and cyanide plant, and this  
has been thoroughly overhauled and  
remodeled. Two gas engines have been  
added, and it is expected that the en-  
tire plant will be in running order by  
Wednesday of next week. The prop-  
erty now employs about twenty men  
and more will be added when milling  
is commenced. The formation of the  
country is granitic with pay ore in  
quartz veins of varying width. The  
value of the Cleveland-Pacific appear  
to be practically free-milling.

**Dredging in Butte.**  
The Gold Bar Dredging Company of  
this city has recently installed a "Pul-  
can Little Giant" electric shovel, with  
a capacity of four cubic yards a min-  
ute upon its gold-bearing gravel  
land on Butte Creek in Butte county.  
H. E. Hewitt, secretary of the com-  
pany, gives the following information  
regarding its operations:  
"The gravel is about thirty feet  
deep, with gold distributed evenly  
throughout. The company has been  
figuring on average values of 20 cents  
per cubic yard, which is a very safe  
figure, as there is probably none of  
the gravel which carries as much  
value. Some samples run from \$1, \$2,  
\$3 and up to \$20 per cubic yard, by ac-  
tual test, and these values are found  
many feet from bedrock. The gravel  
is removed by a small system of two-  
strand cable cars from the electric  
shovel to the stationary washing  
plant, consisting of a large revolving  
screen made of stout perforated boiler  
plate through which the gravel is  
passed, and washed under a heavy  
water pressure; the coarse material  
passing on to a conveyor made of an  
endless rubber belt which travels  
around a long ladder, thus stacking  
up the tailings. The fines go through  
the perforations on to gold-saving ta-  
bles underneath, which are of most  
modern construction, and which save  
the gold. The whole of this machine-  
ery is operated by electric power,  
which is supplied at a low rate by a  
power company located just above  
the mines on Butte Creek. The com-  
pany has just given orders for the  
power to be turned on, and the ma-  
chinery will immediately be put in  
motion."

**Baltimore Belle.**  
The Baltimore Belle lease upon the  
Bee Fraction, adjoining the Florence  
at Goldfield, being operated by a com-  
pany controlled by Dr. W. K. Robinson  
of this city, has now reached a depth  
of 210 feet and will be pushed with  
all speed to the 400 before any further  
attempt is made to crosscut. The dou-  
ble-compartment shaft is equipped  
with a twenty-five-horse-power hoist  
and two full shifts of miners are now  
employed. The lease runs from Oc-  
tober of last year for four years upon  
condition that 400 feet of shaft work  
is completed in that time. This clause  
will probably be fully complied with  
in the next thirty days and the lease  
will then be in effect until some date  
early in 1911. Owing to the labor trou-  
ble in Goldfield, the leasing company  
receives credit for about four months  
of enforced idleness.

**REALTY TRANSACTIONS.**  
Sale of Valuable Westlake Property.  
Deals in Southern Section.  
Exchange Reported.

Mennell & Hancock have sold, for  
H. Maynard, to Roy F. Drew the prop-  
erty at No. 1001 Lake street, about 100  
feet north of Eleventh street, for \$11,  
000. The house, which was very care-  
fully built, is on a handsomely im-  
proved lot, 60x150 feet.  
The same firm has sold to H. May-  
nard a lot 12x120 feet on Orange street.  
In the Sunset Park tract, for \$2500.  
The buyer will build.  
John H. Hillman has purchased a lot  
12x141 feet on Forty-seventh place  
between Main street and Moneta av-  
enue, for \$1025. The buyer will build  
a six-room bungalow. James P. Leary  
has purchased from L. B. Lucas a  
seven-room house at No. 341 West  
Fifty-second street, on a lot 12x100  
feet, for \$2200. These sales were made  
through the agency of A. O. Kent.

E. W. Hayward reports the exchange  
by R. B. Trace with W. D. P. Richards  
of West Saticoy, Ventura county, of a  
lot 67x50 feet, on Court street, about  
seventy-five feet from the northeast  
corner of Pioneer street, held at \$15,000,  
for twenty-eight-acre ranch, set with  
walnuts and beans at Saticoy, and a  
house and two town lots in that place,  
valued at \$25,000, the difference being  
settled in cash.

**WAR ON THE SALOON.**

Anti-Liquor Workers Prepare What  
They Say Will Be Biggest Con-  
vention in Their History.

Preparations are advanced for what  
the Anti-Saloon League of California  
says will be the biggest convention in  
its history. It is to be held from June  
1 to 5 inclusive, at Immanuel Presby-  
terian Church.

Those dates have been chosen be-  
cause on June 2, 1905, at an election  
here, 8340 ballots were cast to banish  
the saloon from this city. That was  
the first time in the history of the  
United States that a city of this size  
attempted to get rid of the rumshops.  
The league felt the vote to be an in-  
spiration to new effort and will com-  
memorate the day by holding the forth-  
coming convention on the anniversary.  
Dr. Chapman and assistants, who  
were arranging for the meeting, report  
that the pastors of the city are united  
in cooperation. They say that in every  
part of the State local organization  
and aggressive campaigning are re-  
ported.

**When the Father Thought Things.**

The circus had come to town, and  
there was a tiny boy, not more than  
three years old, who was too excited  
to eat or sleep, so tired was he with  
visions of the wonders that might be  
seen. So his father (who was a big  
boy himself) decided to take the baby  
to an afternoon performance, and the  
two set off together.

It was a gorgeous afternoon, and the  
two came home with exciting tales of  
the marvels they had beheld. Never  
had there been such a show or such an  
animal. Language was quite inadequate  
to the occasion—it had been a thing of  
pure, golden joy.

At 6 o'clock the little fellow was hav-  
ing supper, when he suddenly stopped.  
His mouth full of porridge and the  
spoon sticking out from it at a defiant  
angle, and burst into a roar, denoting  
heartbroken, and inarticulate, the  
spoon dropping with a clatter to the  
table.

His father was puzzled and asked var-  
ious questions as to possible stomach-  
ache, stray pins, etc., meeting with no  
answer whatever. Then he remem-  
bered.

"Why, Jacky," he said, "do you think  
this is nice of you? Father has taken  
you to the circus, and just think of all  
the things you've seen! The Polar  
bear, and the elephants—and—"

"But Jacky's rage at this became un-  
governable, and he found words:  
"The elephant—!" he wailed, "the  
elephant—wasn't—wasn't—half big  
enough!" (New York Times)

Walter Riggins.

WHERE IS HE?

BOY GONE AND

PARENTS FEAR.

LAD THOUGHT WAS THREATENED

WITH MURDER.

Left Home Last Thursday Morning,  
not Seen Since—Had  
Quarrel With Man Over Dollar and  
Feared for Life—No Reason to Run  
Away.

"If anything happens to me, you'll  
know who did it. I'm afraid that  
fellow will kill me if he gets half a  
chance."

This significant remark made to his  
parents, Mr. and Mrs. L. C. Riggins  
of No. 44 South Mathew street, early  
last week by their son, Walter, aged  
16, was followed by the disappearance  
of the lad Thursday morning. Now  
the father fears he may have been  
foully dealt with by the man the boy  
most feared. The name of this per-  
son is known to the grief-stricken  
parents and will be disclosed to the  
police today.

When young Riggins left his home  
at 8 o'clock Thursday morning, he  
said he was going to his father's  
shop on Franklin street. He did not  
reach there, nor did he go near the  
Success Automobile Company, Pico  
and Hill streets, where he worked.  
He has not been seen since he bade  
his parents good-bye five days ago.

Mrs. Riggins says her son has  
never stayed away before without let-  
ting her know where he was. He was  
always fond of home and did not stay  
out late at night. She is unable to  
account for his strange disappearance,  
as he never spoke of a desire to  
leave.

"Walter had as good a home as any  
boy could want," she said yesterday.  
"He told me of the threat that man  
made. He was frightened. The man  
said Walter owed him a dollar. My  
son asserted he had paid the money.  
They had trouble because the man  
wanted to get his job. I am afraid  
something terrible has happened to him."

The father shares the anxiety of his  
wife. He has conducted a systematic  
search for his son without avail.  
This morning he will call on the de-  
tectives to help him.

"It is a serious thing to name any-  
body in connection with the disap-  
pearance of my son," said Riggins  
last night. "The boy may have sim-  
ply left home of his own accord, but  
I do not believe he did. His speech  
once of joining the navy, but I told  
him down to see the battleships,  
while the fleet was here, and when he  
saw those fellows in chains he said:  
'That's enough of the navy for me. If  
anything has happened to him I shall  
find it out, and it will go hard with  
any man responsible for his disap-  
pearance.'"

**NEW STATION OPENED.**

Las Vegas and Tonopah Establishes  
Shipping Point for Hornsilver,  
New Camp.

The Las Vegas and Tonopah Rail-  
road has opened a station twenty-one  
miles south of Goldfield known as  
Stonewall, from which point there will  
be a stage running to Hornsilver, the  
new mining camp thirty miles south-  
west of Goldfield. The new station  
will be the shipping point for this  
camp.

The Salt Lake Railroad ran a spe-  
cial train of three Pullman parlor cars  
Sunday to Verdugo Cañon for the  
grand picnic of the Concordia Club.  
One hundred and fifty members en-  
joyed the day's outing. The club's  
chef and a force of waitresses and  
assistants were taken out and dinner  
served. Passenger Agent Charles D.  
Pike went along to see to the comfort  
of the party. The entertainment was  
in charge of Eugene H. Roth, chair-  
man of the committee.

For Memorial Day the railroads will  
sell special round trip tickets between  
California points at one way and at a  
third fare. The sale will be on the  
29th and 30th, and they will be good  
for return until June 1.

**RAILROAD PERSONALS.**

Frank Jenner, general agent of the  
Tonopah and Tidewater Railroad at  
Goldfield, is here for a few days.

Ross Cline, ticket agent of the Wa-  
bash Railroad in this city, has returned  
from a visit to the East.

E. W. Gillette, traffic manager of the  
Las Vegas and Tonopah Railroad, has  
gone to Salt Lake City for about ten  
days' absence and will return through  
Goldfield and the Nevada mineral dis-  
tricts.

C. H. Gaunt, assistant general man-  
ager of the Santa Fe lines east of Al-  
buquerque, and superintendent of tel-  
egraph for the entire system, is ex-  
pected here today.

Fred Wann, general traffic manager  
of the Salt Lake Route, left yesterday  
on the Los Angeles Limited for the  
East on a business trip, to be gone  
about a week or ten days.

**SPINAL MENINGITIS.**

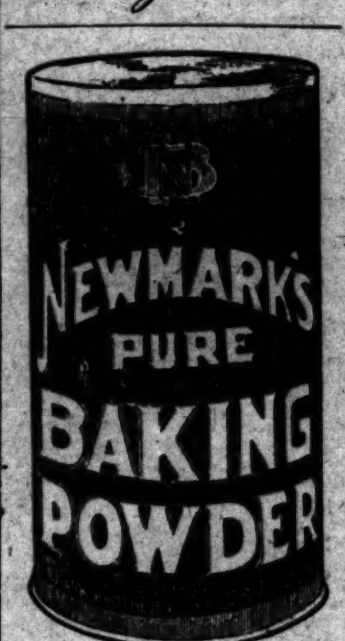

Man, Probably Dying, and Unidentified,  
Found Unconscious in Street.

Taken to Receiving Hospital.  
Suffering from an attack of spinal  
meningitis, an unidentified man was  
found unconscious at Tenth and Mo-  
line streets yesterday afternoon, and  
taken to the Receiving Hospital.

He is about 32 years old. His cloth-  
ing is dark and he wore blue overalls.  
His hair is sandy and his mustache  
light red.

The surgeons say he may die. Every  
effort is being made to secure his iden-  
tification.

**WATER  
Is Abundant At  
CORCORAN**  
One Of The Many Great Flowing Wells

You can see this wonderful water supply by  
taking in tomorrow evening's excursion. Dry  
years can have no effect on the property of  
the Corcoran farmer. He is practically inde-  
pendent of rainfall. Corcoran lands have  
scores of other advantages beside a magnifi-  
cent water supply. We want to show you  
these advantages. We want you to see with  
your own eyes WHY Corcoran is the best place  
in the State for the man who wants 10, 20,  
50, 100 or 500 acres.  
If you are at all disappointed after you have  
taken the Corcoran trip, we will cheerfully refund  
your carfare. Decide now that you will be  
one of our jolly party tomorrow night. Choice lands  
are available at low prices per acre. We show  
you over the entire district. You can interview  
the ranchers yourself. Register your name for  
sleeping car accommodations today. Hunsbert and  
Wilmer, general agents for Security Land & Loan

## WITH DRAWN SWORDS.

Standing on a fateful yesterday between the proletariat and their ancient rights and the predatory plutocracy of a decaying republic, were two champions of the common people, their feet firmly planted on the blistering sands of the sun-baked metropolis of the rain belt. Need we name these gladiators to a public that already cherishes their respective Christian appellations as household words? Heaven forbid that we should be put to the humiliation of so doing.

And yet we shall name them, for their names are music in the ears of the populace that has long cowered beneath the scorn and brutal oppression of soulless corporations and other combinations in restraint of trade and notoriety and free drinks. Silver Dick Warner and Bobbie Loucks—names that arouse in the hearts of freemen enslaved a new hope and a thrill that beats a ride on a fire engine a mile. Silver Dick and Bobbie standing with their backs to the wall fighting to the death for the people! Behold them and rejoice. And yet there are those who say that the battle is lost. There are those who have fled to the wilderness in despair that their country will ever again take her proud place among the nations of the earth!

The people should never despair. When the clouds gather thickest it is then perhaps that the dawn is closest at hand or somewhere in that vicinity. We know full well that somewhere on the hundred and forty-seventh story of a New York skyscraper the plutocracy is even now conspiring to place a new set of ticket agents on duty who shall be even more insulting in their ways than any who have held down the same jobs heretofore, thus wringing from the people their last inalienable right. But let us not give up. Let us turn our eyes toward Fresno among her thousand vineyards and trust to Bobbie and Silver Dick to rescue us from the claws of the dragon of gold!

## NOT A DEATH RATTLE.

Europe's war lord is rattling his saber again, but it's not a death rattle, simply a precautionary measure to see if his sword is loose. The cable correspondents have it that the Kaiser means it as a hint for France and Great Britain. They would have us believe that William the Ready is shaking his mailed fist in the direction of the Seine and is preparing another telegram which shall interfere with royal appetites in Buckingham Palace.

But, Misses France and her (for the present) admiring John Bull don't give a Confederate note for all the mailed fists on the Rhine or for all the code messages that come out of Berlin. They have an entente cordial and what is more to the point, they've got the ships, they've got the men, they've got the money, too. Whereas Germany is hard up and she is rather shy on marine dogs of war compared with the number Great Britain and France can muster in the North Sea at strikingly short notice.

In our view, the plain speaking in the Cologne Gazette, in which our old friend, Bill the Kaiser, indulged last week was not particularly addressed to the flirtatious John Bull and his latest belle. It was just a sort of reminder to the world at large that the German war lord has not been overcome by slumber and that he does not intend to be snuffed out of public notice altogether.

It has so happened that the United States has held the center of the world's martial stage ever since its navy appeared off this flag-waving coast of this glorious California of ours. Until Admiral Evans and his men came up from the "utmost cape" and placed their big battleships fairly and squarely in the public eye, the Kaiser was continuing to monopolize that share of attention which he considers to be his due. Since then, however, the world has been taken up with the significant spectacle of the biggest fleet that ever rode on Pacific waters. The Kaiser has been eclipsed by "Fighting Bob" and his fighting men.

And that's what makes the Prussian mad, that's what causes the touchy torments of the Cologne Gazette to flow in printer's ink, and that is what induces France and Great Britain to go on with their little flirtation consciously oblivious to the shouts of the war lord, who himself is hidden behind the American shadow, and the rattle of whose sword just now causes no more attention in Europe than does the whistle of a Santa Fe engine along Marmion Way.

## HELPING US SOME.

The Sacramento convention last week did excellent work in setting forth a declaration of principle which will help a great deal to carry the State next fall. The Democratic State Convention has been in session at Fresno, and its platform will help us greatly in carrying the State for Mr. Taft. The cleavage in thought between the two parties is clearly defined in the resolutions emanating from the two State conventions. The Sacramento declaration is altogether sane, conservative, sound and American. The Fresno concoction seems quite like an echo from the socialist convention held at Chicago a few days ago.

Now if the Republican National Convention, to meet in a month at Chicago, will only do the reform job as skillfully as that done at Sacramento, and if the Denver gathering is ruled by the spirits kindred to those at Fresno, the beginning of the battle will be such as to foreshadow success at the polls in November.

The two declarations of principles merit a little reminiscent consideration. Theodore Bell was a prominent figure in the Fresno gathering, and no voice was stronger than his for notions quite like outcries from the mouths of Debs, Haywood and others of that ilk. The Fresno platform is made up mostly of the very fads The Times so often warned the Sacramento convention not to permit to be forced upon our party. The men so intent on putting the Debsian notions in the Republican hands were bound two years ago to elect this man Bell Governor of California and defeating the Republican candidate, a man of conservative opinions. The treacherous "organs" of this Bell cult make false pretense of satisfaction over the Republican platform. As a matter of cold fact the Fresno resolutions would be perfectly in place if run as Express editorial matter. If any one should read those columns, he would never detect the least difference in the tune.

## NO HELL WITH THE COURTS.

The words came from the foul and rabid mouth of W. D. Haywood, who, as many think, escaped conviction for murder cruel and multitudinous because merciful laws, careful to protect the innocent man even at the risk of letting the guilty go unpunished, demand unprejudiced and unaltered confirmation of testimony given by a participant in crime.

The expression only is extreme. The thought is a common one in the minds of men who stand in higher places than Haywood's, but are too shrewd to give their opinions words. A St. Louis corporation engaged in making stores incurred the ill-will of men associated with W. D. Haywood. These associates of the western ruffian entered into a conspiracy to destroy the business of the Buck stove makers. The case was taken into court, and a Federal judge issued an order forbidding the conspirators to pursue their course.

There is a brief review of important facts. Good citizens should join on the platform that above all things the laws as they are must be obeyed, and

## STRAWS ARE IN AGAIN!

that decisions rendered by courts of competent jurisdiction must be upheld.

The United Mine Workers were recently in national session. This association is an ally of the Western Federation of Miners, to which W. D. Haywood belongs. The United Mine Workers' meetings were presided over by John Mitchell, who, as many claim, is a man of a different type from Haywood. He is simply a shrewd man, not a whit better. The United Mine Workers, Mitchell presiding, passed a resolution declaring the boycott against the Buck Stove Company in force and levying a fine of \$5 on any member of the union who disregarded the boycott order. John Mitchell had been personally served with a copy of the order of the court.

In principle and in practice there is no difference between John Mitchell and W. D. Haywood. Mitchell is less brutal in his way of expressing himself. He is less raw and violent. Haywood is of the Henry type, who says of a verdict by a jury, "the hell you say!" But at heart all three are alike, contemptuous of courts, resentful at juries who have respect to their oaths, and opposed to all laws which restrain them from the particular kind of vice on which they are intent.

## JAPANESE LOAN.

Until definite steps are taken it will not be safe to conclude that American financiers are about to make a new loan of \$50,000,000 to the Japanese government. It is a fact that this would not all be an addition to the government debt of Japan, for \$30,000,000 is to meet an obligation about to mature. But with that allowance, bankers are not likely to aid the Mikado's government in adding \$20,000,000 to the already enormous debts of the country.

The Japanese public debt is larger than that of the United States. The interest rates are so high that the charges on this account are all of two and a half times as great as ours. The small, poverty-stricken nation is already staggering under a crushing load of taxation. About everything Japan has to mortgage has a lien on it already. Unable to meet the obligations coming due, it seems improbable that the new loans will be forthcoming here or in Europe.

One would think the Japanese would be trying to pay off a part of the public debt, not to increase it. They give out that they have \$30,000,000 in the treasury toward meeting the sum of \$50,000,000 soon coming due. The most it would seem safe to lend that government would be \$20,000,000. Every intelligent traveler who comes from Japan speaks of the suffering of the people under the awful burden of taxation, and the unrest because of taxes. Why does the government of Japan seek to increase this burden. The new loan would probably bear not less than 5 per cent. interest. For what is the new money to be used? If it is to build more ships or to get a firmer grasp on China and on oriental trade we should be the last to aid her in these ambitions.

## EMERGENCY CURRENCY.

No bill before Congress, none that could be drawn, would provide emergency currency for a bank like the one at Pittsburgh. Queer things come to light in this new century, and Pittsburgh is in the scenery in many of the dramas, comic and tragic, which mark our times. This director's room in a banking house draw poker was the regular way of closing the business day could hardly be found, except in Pittsburgh or New York. It is indeed the latest novelty of the season in new sensations. There is no need of a new currency law to deal with this emergency. Pennsylvania has laws enough to send these poker-playing financiers to work honestly for the State. There are large supplies of stone in the hills around Pittsburgh, and this is the era of roads. Just send Mr. Montgomery and his fellow-financiers to break stones and in the interim to pave roads with good resolutions to live honest lives when their "time is done."

## WILL YOURS?

A waiting cottage by the sea,  
A packed-and-ready family,  
In state of glad expectancy,  
Arrayed in smiles.  
Advantages beyond compare,  
Not least a Multi-Millionaire.  
Whom each Fair Daughter plans to share  
With maiden wiles.

A Despot's adamant decree,  
A panic-stricken family,  
On verge of wild profanity,  
Or depths of woe.  
Dejected wait the Daughters Fair,  
Some other'll get that millionaire!  
But vain are bribe, intercept, prayer,  
THE COOK WON'T GO! —Puck.

## "BE YE PERFECT."

We are the lilies of the field,  
And this we deeply know—  
The days are not to waste nor yield,  
But every hour to grow.

We cannot for another be,  
Nor others' burdens save;  
The way to make the world more free  
Is not to be a slave.

Think not to keep a soul from pain—  
Tis oft the weakening-hour;  
The victory is all the gain,  
The struggle brings the power.

PYTHIANS LOOK FOR EQUINE DARK IN LONG BEACH.

First Day's Registration of Visitors Attending the Grand Lodge and Grand Temple Approaches Thousands and—Grand Keeper of Records and Seal Great Machine Man.

LONG BEACH, May 18.—Delegates to the Grand Lodge, Knights of Pythias and Grand Temple of Pythian Sisters together with Past Chancellors and Past Chiefs from all over the Southern California, who are to receive their degree of honor, have been arriving all day on every train and the registration at headquarters showed that 1,200 to 1,300 visitors. A special of four Pullmans, two chair cars, a baggage coach and dining-car came in at 10 o'clock this morning over the Southern Pacific, bearing 280 delegates from ports of the Tehachians. They were met by reception committee and assigned to various hotels and apartment houses.

The only business transacted during the day was the filing of credentials with the committee, which reported on them tonight, following the public reception, when a short session of the Grand Lodge was held and the degree of honor was conferred upon 200 Past Chancellors.

BUILD MORE RAILROAD. Work to Be Begun on Construction of Track for Coast Line From Santa Monica.

SANTA MONICA, May 18.—Work is to be begun soon on the construction of another stretch of track for the Hueneme, Malibu and Port Los Angeles Railroad. Max French, a railroad contractor, having headquarters in Los Angeles, returned this afternoon from a trip to the Malibu country, where he had gone at the instance of the builders of the proposed railway for the purpose of inspecting the survey, preparatory to making an estimate of the cost of construction. It is understood that the preliminary contract for the building of five miles of road, the ties and rails for the same, will be let by the company.

The contract to be awarded will be for grading and track laying only, as all material is furnished by the company. This will be the third five mile stretch of road to be built since work was begun on the Malibu coast. No brass band preceded the commencement of operations then, and the public has not yet been taken into the confidence of the promoters. Mrs. K. Rindge, widow of the late millionaire owner of the great Malibu ranch, is the president of the company.

Soon after the death of Mr. Rindge she had surveyed in the field. At that time the estate of the late Mr. Rindge was simply carrying out the wishes and plans of her late husband. The first work was done at a point on the beach just above the Los Angeles, where the spur track of the Southern Pacific terminates, but that company has since been succeeded in bringing building operations to a sudden halt. However, a truce was arranged after the death of Mr. Rindge, and the road was simply carrying out the wishes and plans of her late husband.

Upon this all building materials have been ordered. The work on the road was completed, with rails laid and bridges built. Last season another five miles of road was surveyed over the ten miles the crops of the Malibu ranch have since been handled. The northern end of the road is not far from Point Dume, the upper ranch-house, but the stakes set by the surveyors continue on across the point and on into Ventura county in the direction of Hueneme, Ventura and Santa Barbara. The surveying gangs have been at work for some time and are said to have laid out several routes through the mountains that form the backbone of the Coast Range.

While the surveys made and the road so far as completed have been under the direction of the Rindge company, the Malibu country, there has been a deep-seated suspicion that the road was in reality being built for the benefit of the Malibu ranch-house, but the stakes set by the surveyors continue on across the point and on into Ventura county in the direction of Hueneme, Ventura and Santa Barbara.
